

The Yavapai ARC Signal

Vol. I No. 1

A Monthly Newsletter

December 1991

NEWSLETTER STARTED

At the last Board of Directors meeting, it was decided to start a club newsletter which was long ago asked for by many of the local amateur operators. see NEWSLETTER.

YARC INCORPS

The YARC has been going full speed towards incorporation see FRED.

VE TESTING

Thanks to Nick AA7FX and many YARC volunteers, testing of new amateurs continues. Testing sessions are held every 3rd month of the year on the second Saturday of the month. see VE TESTING.

MEMBERSHIP FORMS

New form for our roster!
Enclosed is our

new membership form.
see FORM.

CLUB NET

Net meets on the 146.88 repeater every Wednesday evening at 1900 hours on W2YAV repeater. The purpose of the net is to gather briefly on the air and exchange information.

MIR

Soviets heard on ham bands.
see MIR

FREQUENCIES

Popular, often used local frequencies are listed on the back of this newsletter.

NEWSLETTER

The Board of Directors thought the best way to disseminate information about club events and activities would be through the printed form: a newsletter!
Our club

newsletter should arrive to you every month if everything continues as planned. As a cost savings to the club, the newsletters are to be distributed at the meetings with a mailing to those who could not attend. This is not a perfect situation but unless the club has more funds to work with this is how they will be distributed for the time being. Because this is YOUR newsletter, contributing articles and any information you wish to share will be readily appreciated. Articles, questions or comments can be sent to the club address: YARC, P.O. Box 11994, Prescott, AZ. 86304. You may also contact either of the newsletter editors on the net or by

landline.

FRED

Fred N7PJN, our club treasurer has informed the membership that all the bills for incorporating the club have been paid. We are now incorporated as a non-profit corporation in Arizona and have affiliated with ARRL. Thanks to all members that have worked toward achieving this goal.

VE TESTING

The next testing session will be held at the Salvation Army Building 237 S. Montezuma at 9:00 a.m. on Saturday February 8, 1992. Subsequent sessions will be held in May, August and November. Stay tuned for the times and locations.

FORMS

Dues are \$12.00 per year (Jan 1st through Dec. 31st) and \$6.00 after Sept. 1st. Thank you for supporting our club.

MIR

The former Soviet Union's forgotten citizens seem to be those of the

MIR space station except to many ham operators who often listen to the packet bursts on 145.55. In future issues times of passages over our area will be published. Generally if you listen from 10-11 a.m. you might hear the packet bursts as they are over our area around then as well as 2-3 a.m.! Occasionally they are heard to say a few words such as the recent contact WW7B made about a week ago. Dosvidaniya!

FIELD DAY

The field day committee, chaired by John KB7MUA, started planning Tuesday December 10th. The next meeting is scheduled for Friday January 10th 1700 hrs at JB's. All members are welcome to attend. Any suggestions will be greatly appreciated!

6 Meters

As this newsletter goes to press, several stations in southern CA have reported having excellent contacts with KH6IAA in Hawaii. Rex tried making a

contact, but didn't hear him on 52.525 although it was known that KH6IAA was out there. Solar conditions are presently favorable for 6 meter contacts.

CLUB OFFICERS

Hank W4ZBP, President
Ken N7NBK, Vice-president
John KB7MUA, Secretary
Fred N7PJN, Treasurer
Chet N7GTK, Program Chairman
Leonard KB7FRV, Board member
Nick AA7FX, Board Member
